# KPII KEYPAD

## AI 806-002

## KEY FEATURES

- For use with Omni 3 and Inspex 3
- Simple to use keypad interface
- The KPII Keypad allows the user to access the preset functions without using the systems GUI. This controls and standardises the inspection process by removing the operators access to settings, thus reducing the possibility of operator error.
- A preset can be customised to hold specific system settings and measurement detail.
- Up to 5 presets can be added.
